

NATURE'S PALETTE DYES

100% naturally derived liquid colorants designed specifically for wax candles.
Derived from plants, fruits, vegetables, & aquatic botanicals.

USAGE

- Recommended use is at 0.5% dye.
- To increase shade intensity, it is possible to go above 0.5% dye. However, additional burn testing is recommended.

APPLICATIONS

- Nature's Palette Dyes are formulated exclusively for wax candles

RECOMMENDATIONS

- To ensure optimal color stability with natural colorants, a small amount of UV is recommended.
- For extended color-fade protection against all light sources and aggressive fragrances, **ask about our collection of color and UV stabilizers. We can recommend the best one for your specific needs.**

KEY BENEFITS

- Delivers on consumer demand for candles with a healthier & more thoughtful ingredient story – that don't sacrifice vibrant color.
- 100% derived from plants, fruits, vegetables & aquatic botanicals.
- Formulated with only 3 essential ingredients!
- Shade range reflects the beauty of nature's bounty.
- Vegan
- Cruelty free
